

Gender Changers

Gender Changer Hood

- A two-piece light grey plastic gender changer for use with subminiature D connectors in the 9, 15, 25, 37 and 50 way versions. The body halves latch together, and locking screws are provided to secure connectors in the mated position.
(Connectors supplied separately)
- **Note: If the metalised version is required please suffix the part number with ‘Z’**

Size	Part Number
1	DAC 167 P
2	DAC 168 P
3	DAC 268 P
4	DAC 169 P

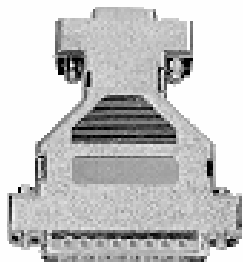

Gender Changer

- A very low profile series of gender changer, male-to-male and female-to-female, with all pins connected straight through. Male gender changer is fitted with jackpost to jackscrew, and female is fitted with jackpost to jackpost. Available in 9, 15 and 25 way versions.
